

JAR 3.0 – What's that?

JAR 3.0 is a project for young people.

We meet up on 3 days for 3 hours each day.

During the workshop we take a look at how social media has an influence on our daily life.

We also take a look at what kind of videos youtubers  post. We want to get to know your opinion on the topics. We'll be happy if you tell us which youtubers you follow and what experience you made with social media.

Your opinion is important to us.

Therefore we would love to invite you.

Just talk to Necla Akbaba and Annika Schürmann if you want to take part.

Looking forward to see you!
